

DESIGN TOGETHER ACTIVITY

# BESPOKE BODIES COLORING BOOK PAGES

*Bespoke Bodies: The Design & Craft of Prosthetics*  
is an exhibition exploring prosthetic design's past, present, & future.

## EXPLORE TEXTURE & COLOR

[designmuseumfoundation.org](http://designmuseumfoundation.org)

Meet Derby the Dog & Grecia the Toucan! Both use 3D-printed prostheses created by 3D Systems & are featured in our Bespoke Bodies exhibition. Collect textured items from your surroundings to color & decorate the drawings of Derby & Grecia.

## LEARN ABOUT TEXTURE & COLOR

### TEXTURE

We experience texture through touch, like when petting Derby the Dog's fluffy fur. We can also experience texture through sight, imagining the fluffiness of Derby's fur.

### COLOR

Our eyes pick up different wavelengths of light, & the colors we see can vary depending on a person's sensitivity.

## MATERIALS TO GATHER

Coloring  
Book  
Pages.

Art supplies  
such as paint,  
glue, crayons,  
or markers.

Textured objects found around  
the home (at guardians' discretion),  
such as sponges, fabric,  
feathers, food, plants, etc.

## INSTRUCTIONS

1. Collect objects from around the house with various textures.
2. Gather art supplies found around the house, such as, paint, glue, crayons, markers, highlighters, etc.
3. Use the textured objects & the art supplies to add texture & color to the provided Coloring Book Pages.

## ACTIVITY PROMPTS

Grecia's prosthetic bill was 3D printed from a robust nylon material, chosen for its strength & durability.

Did you know that Toucans are omnivorous? Grecia the Toucan uses a prosthetic bill to crack seeds & grasp fruits, vegetables & bugs! Toucan bills range in color, including oranges, greens, & even blues!
